Amendment of ACC Decision No: 51170 )  
or, in the Alternative, a Declaration of )  
no Substantial Change )

Docket No: E-20465A-06-0457

AMENDMENT TO

SOUTHERN CALIFORNIA EDISON COMPANY'S

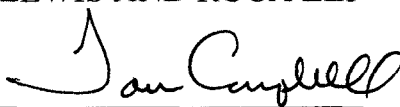

APPLICATION

On July 10, 2006, Southern California Edison Company ("SCE") filed an Application requesting that the Arizona Corporation Commission ("Commission") issue a finding that the construction of 13 double circuit towers in the Copper Bottom Pass in western Arizona built as part of the Devers to Palo Verde No. 1 transmission project ("DPV1") was either consistent with Commission Decision No. 51170 (the "Decision") or was not a substantial deviation from that Decision. As an alternative, SCE requested that the Commission amend the Decision to authorize these 13 double circuit towers pursuant to A.R.S §40-252 (the "Application").

1 SCE needs to amend the July 10 Application. In that Application, SCE stated that  
2 there were 13 double circuit towers out of a total of approximately 397 towers built in  
3 Arizona for DPV1. Subsequently, SCE has learned that there are 14 double circuit towers  
4 and that the actual total number of DPV1 towers in Arizona is 382. The additional double  
5 circuit tower is not in the Copper Bottom Pass, but is at the Palo Verde Nuclear  
6 Generating Station Switchyard.

7 RESPECTFULLY SUBMITTED this 9<sup>th</sup> day of November, 2006.
